

## BISURATED MAGNESIA

Insures Good Digestion for Dyspeptics and Stomach Sufferers.

NINE TENTHS of all stomach trouble is directly or indirectly due to excessive acidity. A teaspoonful of Bisurated Magnesia in a little water immediately after eating or whenever pain is felt, instantly neutralizes the acid, stops fermentation and gas formation and makes the food contents bland and non-irritating; thus giving the stomach a chance to do its work unhindered, and nature a chance to heal the inflamed, distended stomach.

BISURATED MAGNESIA, "the best thing for indigestion," is obtainable in both powder and tablet form, at Bomar Drug Co., T. N. Coleman, Rexall, F. J. Ramsey, and all leading druggists in Ardmore.

### ACTIVITIES OF WOMEN

Interesting Notes of Feminine Sex the World Over.

Oregon has twelve women bank officials.

A New York hotel has a class in English for its maids.

Even the nuns of New Zealand go to the polls and vote.

In Chicago there is one divorce for every six marriages.

Mrs. C. C. Bradford is superintendent of public instruction in Colorado.

Sudden death among women is in the proportion of one to every eight men.

Among the Berber tribes in Morocco women are yoked to the plow with an ox and mule.

The war has been the cause of

the postponement of several royal marriages abroad.

Wellesley college girls have formed a baseball league among the different classes.

About one-half of the women workers in the stores of Indiana receive on an average of less than \$7 per week.

Mrs. J. Borden Harriman has filed a bond for \$110,000 so that she can qualify as a guardian for her daughter.

Under the ruling of the United States supreme court, nurses in California are only allowed to work eight hours a day.

Dr. Midzuko Takahashi, the first woman physician of the modern school in Japan, has retired to become a Red Cross nurse in England.

Two states in North Carolina have established such a reputation for their canned fruits and vegetables that they can not fill the demand.

Suffrage states increase most rapidly in population, 63 per cent in equal suffrage states to 19 per cent in male suffrage states.

Miss Audrey Munson of New York City will be immortalized on the medals to be struck to commemorate the Panama-Pacific exposition.

Believing that music softens the heart of prisoners, Miss Hattie McMillan of Newark, N. J., has presented the Sussex county prison with an organ, which the authorities will have played as often as possible.

The training of girls for vocations, which at present is one of the biggest movements among American women, was the subject of a big conference of women which met recently at the university of Michigan.

Mrs. Ada H. Kepley, a lawyer, has announced her candidacy for mayor of Effingham, Ill. Mrs. Kepley is an enthusiastic farmer and besides her legal duties she finds time to manage a very profitable farm.

Miss Carolyn F. Bardeen, an assistant prosecuting attorney, made such a huge success of the first case she tried, that district Attorney Smith of Mineola, L. I., intends to have her appear in many lower court cases.

Miss Mary Smith, a wealthy woman of Scotland, Conn., has taken the job as postmistress of that place and will not only run the office, but will provide a corner in her home as a postoffice location.

The democratic ways of Queen Wilhelmina of Holland has made her the idol of her subjects. Her mode of living is of the utmost plainness, and when not tied down with official duties she can always be found with her little daughter, the Princess Juliana.

Several detachments of British women to serve with the army have arrived in France ready to take up duties as signallers, telephone and telegraph operators, dispatch carriers, postwomen, automobilists, and escorts for convoys of food and ammunition.

Mrs. Charles H. Traux, widow of Supreme Court Justice Traux of New York, has been appointed as receiver of an apartment house in that city, and it is believed to be the first time that a woman has been appointed to such a job who is not financially interested in the property in question.

A pain in the side or back that catches you when you straighten up calls for a rubbing application of BALLARD'S SNOW LINIMENT. It relaxes the contracted muscles and permits ordinary bodily motion without suffering or inconvenience. Price 25c, 50c and \$1.00 per bottle. Sold by Bomar Drug Co.

SAVE YOUR MONEY. One box of Tutt's Pills save many dollars in doctor's bills. A remedy for diseases of the liver, sick headache, dyspepsia, constipation and biliousness, a million people endorse.

These will have a displacement of 32,000 tons each and armament equal to that of the Pennsylvania.

The cruising radius of the Pennsylvania will be considerably increased by the fact that she will be equipped for oil fuel exclusively and will have a capacity of 2,322 tons of fuel oil.

The Queen Elizabeth has a capacity of 4,000 tons of oil because of her high speed requirements.

From her enormous main battery the Pennsylvania will be able to hurl, with the pressure of a single firing lever, 7½ tons of steel on either broadside.

In addition she will carry a secondary battery of twenty-two 5-inch rifles for defense against torpedo boats. She will be fitted also with four submerged 21-inch torpedo tubes and

## MIGHTIEST FIGHTING SHIP IN THE WORLD

THE PENNSYLVANIA LAUNCHED TODAY TAKES HER PLACE IN THE LEAD OF ALL THE NAVIES OF THE WORLD.

Newport News, Va., March 16.—When the new super-dreadnaught Pennsylvania slipped from the ways into the historic waters of Hampton Roads here today, she took her place in the lead of the navies of the world as the mightiest fighting machine afloat.

In size and gun power the Pennsylvania is greater even than the Queen Elizabeth of the British navy, which led the recent terrific assault of the allies on the forts of the Dardanelles.

While the British monster carries larger guns, her main battery is only two-thirds the size of that of the Pennsylvania in number and the American battleship is 3,000 tons greater in size.

The main battery of the Pennsylvania will consist of twelve 12-inch, 45-calibre rifles, set in four turrets, three guns to a turret, the plan of big gun arrangement adopted in the sister ships which preceded her, the Nevada and Oklahoma.

Her tonnage measurement is 31,400 against 27,500 for the Nevada and Oklahoma and the Queen Elizabeth. The latter, however, carries eight 15-inch rifles, 45 calibre, set two to a turret, while the Nevada and Oklahoma have ten 14-inch rifles each in two 3-gun and two 2-gun turrets.

In all these ships, including the Pennsylvania, the turrets are all on the center line to concentrate their fire on either broadside.

Five battleships of the British navy yet to be launched, will have less tonnage than the Pennsylvania, the ships of the Royal Sovereign class being of 24,500 tons displacement, and none will equal the Pennsylvania in armament. Each is designed to carry eight 15-inch guns.

Details of four other British battleships, already authorized, are not known here officially.

Five ships of the Japanese navy, estimated for in 1914 and known as the Fuso class, will not equal the Pennsylvania in tonnage with their displacement of 30,000 tons, but will carry the same main battery of twelve 14-inch rifles. They will exceed the Pennsylvania in speed, estimates calling for 22 knots against 21 knots for the Pennsylvania.

The 1914 estimates for the German navy call for three ships of the Kaiser Friedrich III class, with a displacement of 29,000 tons, and carrying eight 15-inch rifles.

The British ships of the Queen Elizabeth class greatly exceed those of any other navy in speed, requirements calling for 25 knots an hour, while the Royal Sovereign class will make at least 22.5 knots.

Since the outbreak of the war details as to foreign naval programs have been jealously guarded and it is probable that Great Britain, Germany and France have laid down many vessels of which no report has been made. So far as is known, however, no vessels have been planned which will exceed in size the three American ships of the California class, work on which has barely started.

These will have a displacement of 32,000 tons each and armament equal to that of the Pennsylvania.

The cruising radius of the Pennsylvania will be considerably increased by the fact that she will be equipped for oil fuel exclusively and will have a capacity of 2,322 tons of fuel oil.

The Queen Elizabeth has a capacity of 4,000 tons of oil because of her high speed requirements.

In addition she will carry a secondary battery of twenty-two 5-inch rifles for defense against torpedo boats. She will be fitted also with four submerged 21-inch torpedo tubes and

## PUT SILAGE CROPS IN THE GROUND NOW

LOCAL AGENTS URGE THAT FARMERS THROUGHOUT THIS SECTION PLANT ALL SILAGE CROPS IMMEDIATELY.

Local dealers in silos are urging that all farmers plant their silage crops now and the best crops for silage, according to the best information obtainable is all canes and solid stemmed grains, such as sorghum, corn, kafir, milo maize, etc. The United States Farmers' Bulletin No. 32 rates the Indian corn as the best silage plant in America, as that variety is reasonably sure to mature before frost.

The department of agriculture says that the corn contains the most nutriment when it begins to glaze, or when denting is well established and before the lower leaves become dry. This is the time it should be cut. If cut before this period too much water is harvested with the crop, and it has not reached its highest development of food sustenance.

Cane, kafir, milo maize and feterita should not be placed in the silo until they are ripe. If put in green, they will turn acid and spoil.

In speaking of silage as a feed for dairy cows, C. I. Bray, of the Oklahoma experiment station, Stillwater, writes as follows:

"Tests carried out at different experimental stations have shown that where silage is fed properly the milk from cows fed silage was chosen by those tasting it in preference to milk from cows not fed silage. The Borden Condensed Milk company for many years refused to purchase milk from silage fed cows, fearing it would taint condensed milk. They have recently withdrawn their objections to milk from silage fed cows, provided that the silage is fed after milking, so that there will be no silage odors in the barn at milking time. Milk is particularly susceptible to odors, and if kept in a room where silage is may absorb a slight taste in its way. For this reason most silos in dairy establishments are placed outside of the barn and separate from it, no silage being allowed in the barn during milking time."

her ship's company will be composed of 65 officers, 863 blue jackets and 74 marines. The ship measures 608 feet over all and 97 feet beam, and her mean draft is 28 feet, 10 inches, almost the limit in size for the Panama Canal and present navy dry docks. There are only a few docks in the world which can receive her and she could not enter many busy harbors except under most favorable conditions of tide and wind.

When completed, the Pennsylvania will have cost the government more than \$13,000,000. She will be ready for commission, under contract, by February 28, 1916. Her keel was laid October 27, 1913.

For hoarseness, inflamed lungs or irritating coughs, BALLARD'S HOREHOUND SYRUP is a healing balm. It does its work quickly and thoroughly. Price 25c, 50c and \$1.00 per bottle. Sold by Bomar Drug Co.

### BLOOD WILL TELL.

Paris, March 16.—Many young men have been lost in France by the fact that their blood was out of order and impure when they started out in this campaign as soldiers at the front. Many of them never reached the battle line because they were taken sick in camp, due to stomach and bowel troubles, and with blood powerless to resist. Young men and old men in America should be just as watchful of their blood to see that it is pure, that their stomach is acting well and the liver active.

It takes lots of vitality, nervous force and strength to win a race. Blood must be pure and good.

Keep the nerves nourished, the heart strong, the head cool, the stomach vigorous, the liver active with a tonic which has stood the test of time and has a wide reputation, such as Doctor Pierce's Golden Medical Discovery. It is the world's greatest Blood Purifier; it enters joints, dissolves the impure deposits and carries them out, as it does all impurities, through the Liver, Bowels, Kidneys and Skin.

If you have indigestion, sluggish liver, backache over the kidneys, nasal or other Catarrh, unsteady nerves or unsightly skin, get Dr. Pierce's Golden Medical Discovery today and start at once to replace your impure blood with the kind that puts energy and ambition into you and brings back youth and vigorous action.—Adv.

IMPORTANT SPECIAL OFFER TO READERS OF THIS PAPER

Any person desiring a copy of The People's Common Sense Medical Adviser before the edition is exhausted should send this notice together with three dimes or stamps, to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., and a copy will be sent by return mail, all charges prepaid.—Adv.

### READ THIS.

The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame backs, rheumatism, and all irregularities of the kidneys and bladder in both men and women. Regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment, and seldom fails to perfect a cure. Send for testimonials from this and other states. Dr. E. W. Hall, 2926 Olive street, St. Louis, Mo. Sold by druggists.

Money getters—the Want Ads

We wish to notify our customers and friends that we have moved from the W. Newman building at 412 West Main St., to 112 A St., Northeast, as we had to have more room for our subscribers.

We now have a large warehouse and are prepared to handle any amount of produce and hides.

We can furnish hotels and restaurants with whatever they want in the egg and poultry line.
